Introduction

Sandwell Metropolitan Borough Council (SMBC) have a duty to prepare and publish an annual transport policy statement specifying the arrangements for the provision of transport or other support that the authority considers it necessary to make to facilitate the attendance of all persons of sixth form age receiving education or training.

‘Sixth form age’ refers to those young people who are over 16 years of age but under 19 or continuing learners who started their programme of learning before their 19th birthday (years 12,13,14).

SMBC also have a duty to encourage, enable and assist young people with learning difficulties/disabilities up to the age of 25.

This policy document specifies the support that SMBC (the council) considers necessary to facilitate the attendance of Post 16 learners receiving education or training.

Education or training refers to learning or training at a school, further education institution, a council maintained or assisted institution providing higher or further education, an establishment funded directly by the Education Skills Funding Agency, learning providers delivering accredited programmes of learning which lead to positive outcomes and are funded by the council, for example, colleges, charities and private learning providers.

Aims and objectives

The council is committed to encourage, enable and assist, where possible, in the participation of young people in education and training.

The council wants all young people to have the same access to opportunities in life. Learning to travel on public transport is an essential skill. We actively promote independent travel so that young people can access their community, training and learning opportunities.

Sustainable Transport

SMBC is committed to improving the journey to school/college/training providers for all young people in the borough and to promoting sustainable and healthier travel by working with pupils, students, parents, residents, and schools. Please visit our website by using this link: [Sandwell Sustainable School Travel Strategy](#) for further information.

Sustrans is the leading sustainable transport charity that provides practical advice for parents and young people to increase confidence in walking and cycling in general, see www.sustrans.org.uk/ for further information.

Public Transport Assistance

Sandwell has a comprehensive public transport network which includes buses, trains and metro. West Midlands Combined Authority (WMCA) connects all public transport in the West Midlands metropolitan area. This includes Birmingham, Dudley, Coventry, Sandwell, Solihull, Walsall and Wolverhampton. It clearly identifies the complete network of bus, train and metro services.

Further information can be found at: www.networkwestmidlands.com

WMCA is responsible for promoting and developing public transport across the West Midlands metropolitan area. They co-ordinate local transport information for Sandwell and publish bus timetables. This includes the Network West Midlands Map and Guide to public transport in Sandwell and Dudley.

The Sandwell and Dudley map shows all bus operators, routes, rail and metro services and the frequency of bus services. The bus map is available online at: <http://static.centro.org.uk/documents/nwm/Map-Guides/Dudley-Sandwell-WEB.pdf>

A journey planner is also available on line at <https://journeyplanner.networkwestmidlands.com/> or there are three mobile apps available which you can download for free from the App Store, Google Play, they are NetNav, NWM and Walkit.

The majority of school journeys that are made by bus use public operated transport, although there are a number of special bus services procured directly by schools or run commercially and some dedicated bus services run by private operators. The WMCA Sustainable Travel Team informs individual schools and Council School Travel Advisers within the West Midlands when school specific buses are being withdrawn or of any changes in timings of which they are aware.

The WMCA Sustainable Travel Team work with schools in Sandwell to assist with the public transport elements of school travel plans and promote sustainable travel. The support offered includes the following:

- Year 6 transition workshops
- Special Needs School Travel Training Workshops and hire of Resources
- Bespoke public transport packs
- Journey planning advice
- Dedicated Education officers
- Travel awareness sessions & route planning for pupils and staff
- Advice on public transport aspects of travel plans.
- Liaison on behalf of school with transport operators to ensure services are running at appropriate times.
- Bus behaviour issues
- Attend events to promote public transport and sustainable travel.

WMCA works in partnership with Safer Travel Police Team, West Midlands Local Authorities and Transport Operators. Within local authorities WMCA liaise with School Travel Advisers, TravelWise Officers and Post-16 Transport Partnership.

Our website www.sandwell.gov.uk includes links to help with all aspects of travel including walking routes/bus routes and alternative travel. To facilitate access to education and training SMBC provides substantial annual subsidies to WMCA to ensure that concessionary fares are available for learners. This is considered to be the fairest method of helping all learners' access their education/training.

LA Support for young people without special educational needs or disabilities

Select the link to access the [Home to School/College and Adult Learner Transport Policy](#) for further clarification on the policy/application processes and appeals procedures.

It is advisable that students who are able take the opportunity to be independently travel trained do so before leaving school. Independent Travel Training is available for students entitled to travel assistance whilst at school.

Independent Travel Training provides the opportunity for those learners with a Learning Difficulty or Disability to help them maximise their potential to enjoy independence and access opportunities to achieve in life.

Schools and colleges provide mobility/travel training for students with special needs to assist them to become independent travellers.
