

Cycle to School Week 2025 | 13th – 17th October

During Cycle to School Week, Year 6 pupils from St Gregory's Catholic Primary School, Smethwick and Year 5 pupils from Tipton Green Junior School, Tipton mastered cycling skills with their Bike Right instructors.

Bikeability Level 1 helped pupils develop their skills on the playground and Bikeability Level 2 taught them how to become more confident by cycling on local roads.

They showed they were pedal ready by performing the ABCD safety check before riding, using the most suitable riding position to find their own space on the road, observing their surroundings and safely passing stationary vehicles and minor roads.

It was a fantastic way to improve their road safety knowledge, exercise and have fun!

Please visit [Bikeability](#) to find out more about their programme.
