

### Lion Farm Note

With regards to Lion Farm and the PPOSS, our Parks section has advised that PPOSS represents a snapshot taken over a relatively short period and may not accurately reflect the current situation.

In terms of existing usage of the pitches they advised:

- Only 7 of the 11 pitches are currently allocated for this season (2024/25)
- 14 teams
- These pitches are used only once per week (2 hours)
- No training or additional use is currently taking place on the site.

This was further updated in September (where they outlined in the table below the weekends pitch allocation for 28<sup>th</sup> September) where they advised that there has been a notable decline in the number of matches played at Lion Farm, with only around three games per week since the start of the season. This reduction is largely due to ongoing issues with anti-social behaviour at the site, which has led to teams being relocated to venues with appropriate changing facilities.
