Statement of Reasons.

Sandwell Metropolitan Borough Council

The Borough Council of Sandwell
(Waiting and Loading Restrictions)
(Traffic Regulation Order No. 30) 2026

The additions and amendments to existing restrictions made in this order are intended to address concerns brought to the Councils attention by members of the public, which the council supports. It is to facilitate the changes that may have been made by redevelopment, change of use, a general increase in demand for on street parking or obstructive parking in a particular area; ensuring that available parking is maximised while maintaining a safe environment for motorists and pedestrians.
