

# Carers Support Service in Sandwell.

Sandwell's new **Carers Support Service** was officially launched today at their new offices at St Albans Road, Smethwick.

NW, SL Co-ordinator has been involved with the initial discussion with other carers to design the specification for the service to contract being awarded and now its official launch.

The new carers support service is for all carers residing in Sandwell and is managed by Forward Carers. Carers are offered;

- **Free support**
- **Carer ID Card**
- **Parent Carer support**
- **Young Carers**
- **Young Adult Carers**
- **Carer wellbeing check and assessment**

We are anticipating in Shared Lives developing links with the Carers support service, not only for Shared Lives Carers, but also families who receive a service from Shared Lives.
