

You're a Wizard, James!

During the matching process with Shared Lives Carers, James shared with the scheme workers his wish to go on outings and explore new locations that he doesn't visit with his parents. One particular place that caught James's interest was Harry Potter World in London. As a big Harry Potter fan, he has always wanted to visit but had not had the opportunity before.

James discussed this with his Shared Lives Carers who were able to make this dream a reality. James was able to visit Harry Potter World with his Shared Lives Carers and their family. James was able to try the infamous butter beer, visit Platform 9 ¾ and explore all things Harry Potter.

James had a great time, and is now ready for Hogwarts!
